

CAPABILITY STATEMENT

| Consulting | Cyber Security | Technical Training

CORPORATE OVERVIEW

Captiva Solutions, LLC is a trusted IT and cybersecurity small business committed to strengthening the security posture of organizations, protecting information assets, educating your workforce with next generation skills, and transforming risks into opportunities. As a certified Woman-Owned Small Business, we are committed to excellence and creating innovative and adapted solutions for our clients. Our vision is to transform traditional IT and training services and be your vendor of choice.

CORE COMPETENCIES

We have a broad service portfolio designed to deliver strategic, financial, and technical value. Our range of services include IT and Cybersecurity solutions and technical and certification training. We utilize a **Real-Skills-for-Real-Jobs™** training methodology that delivers real-world learning activities integrated with hands-on exercises to distill complex theoretical concepts. In addition, our training courses are aligned with DoD Directive 8570.1 certification requirements. Below is a snapshot of our services.

Differentiators

We are a small yet nimble boutique company that constantly innovates in anticipation of industry trends developing new solutions with our customers in mind. Our key differentiators are:

- ONE FOCUS. You - the Customer. We keep your concerns front and center and respond promptly.
- STRATEGIC AIM. Deliberate mix of technology and business solutions with a core competency in cyber security, assurance and compliance audit.
- OUR GUARANTEE. Affordable, scalable solutions that create maximum value and return on security investment (ROSI).
- REINVESTMENT STRATEGY. 50% of revenue is allocated to hiring and resource development to ensure uninterrupted service delivery.
- CERTIFIED & CLEARED. Skilled experts with strong technical capabilities, industry certifications and active security clearances.
- ENDURING PARTNERSHIPS. Broad industry contacts to be leveraged when developing, comprehensive, cost-effective cyber security strategies.
- PERFORMANCE-BASED PROCESSES. Defined methodologies for risk governance and technical training.
- LOCAL PRESENCE. Our Washington, DC location offers close proximity that enables quick onsite support.
