

# Capability Statement

## Who We Are

Captiva Solutions, LLC provides an evolved approach to cybersecurity and privacy. We partner with clients and empower them to uphold the highest-possible security posture for their environment thereby achieving their compliance objectives. To minimize future threats, we proactively develop strategies, fluidly adapt existing systems to the changing security landscape, and enable executives recognize and address third-party and regulatory compliance risks to avoid potential threats to business-critical data and infrastructure.

As an SBA certified Woman-Owned Small Business (WOSB), we are committed to excellence and trusted with protecting our clients' sensitive information assets, educate their workforce with next generation skills, and transform risks into opportunities.

## What Sets Us Apart

**CERTIFIED WOSB:** SBA Certified Woman-Owned Small Business.

**NIMBLE ORGANIZATION:** Our small nature allows us pivot quickly and flexibly to meet our clients' needs.

**LEAN APPROACH:** Constantly looking for ways to do more with less and improve business processes.

**PROFICIENT PROCESSES:** Proven risk governance and professional development methodologies to enhance your security posture.

**PRACTITIONER-DRIVEN TRAINING:** Provided by certified experts actively working in their fields.

**CLEARED, CERTIFIED EXPERTS:** Possess strong technical capabilities, industry certifications, and active security clearances.

**DELIBERATE ALIGNMENT:** Per industry best practices and government directives such as DoDD 8140/8570 and NIST's NICE framework.

**NASBA AFFILIATION:** Sponsor of Continued Professional Education (CPE), able to grant CPEs.

## Our Core Competencies

Captiva Solutions offers IT and cybersecurity consulting and training solutions. Since 2010, we have provided cybersecurity consulting, support, and training for government and private clients that enable them meet their goals of compliance towards, FISMA, FedRAMP, DFARS, PCI, HIPAA, and now CMMC. Our classes are aligned with DoDD 8140 (DoDD 8570) and NIST's NICE framework and we are NASBA certified.

## Strategic Solutions

- Cybersecurity Strategy and Roadmap Development
- Cybersecurity Policy Development
- Cybersecurity Program Management
- Enterprise Risk Management
  - IT Governance
  - Risk Assessments
  - Risk Management Plans
  - Cybersecurity Audits and Assessments
  - Data Privacy Management
  - Regulatory Compliance
  - Independent Verification and Validation
- Security Training, Awareness, and Education

## Technology Solutions

- Security Engineering and Operations
- Vulnerability Management
- Penetration Testing
- Cloud Computing and Cloud Security
